Happy Spring from Sundance Gardens & Landscaping

Serving our Evergreen community for over 30 years

Here at Sundance we are more than ready to welcome Spring 2010! There is something so hopeful and optimistic about this new season, and we look forward to seeing you, our cherished customers, again.

While it is still a bit early for some planting, it is never too early to start planning for your outdoor spaces and garden design. The **Garden Shop** is filling up with beautiful blooms, the **Landscaping** crew has been busy tree planting and designing and building water features and rock walls, and the **Maintenance** team is going full force on Spring Clean-ups. We look forward to hearing how we may help you.

We hope this correspondence gives you a peek into what is happening at Sundance here in beautiful Evergreen. We look forward to sharing our monthly Garden Center Specials and Tips, introducing you to some of our team, and more. Let us know if there is something special you would like to see!

May Garden Center Special

Mention this ad and receive a free 4 pack of pansies with any \$15 purchase.

May Garden Tip

Be patient - don't plant impatiens or other tender annuals until the first week of June.

Did you know...?

In the language of flowers, pansies represent the thoughts of lovers. In Victorian times a small bouquet of pansies meant "think of me", and it was said you could hear your lover's thoughts and see your loved one in the face of the pansy!

Getting to know you.....an interview with Dave Thomas, Sundance Founder & Owner

Dave Thomas

How did you get started in the landscaping business?

Interesting story, my mother is a landscape designer, so growing up I always got roped into helping out. After college I worked for a nursery in Denver, then started working in Evergreen. No one else was doing it 32 years ago, and now I am still here.

How has doing business in Evergreen changed in the last 32 years?

When I first started the initial comment from many customers was "I threw my lawnmower away". Now more homeowners are interested in a "finished" landscape, and they add a little at a time.

How has your business changed?

Sundance went from one guy in a pickup truck to full service Landscaping, Maintenance, and the Garden Center.

What makes Sundance different than other similar businesses?

In my opinion, it is our experienced, loyal, and hardworking staff. We have quite a few repeat employees who are like family. They have a wealth of knowledge in our local environment and are attentive to the best in customer service. It's also been great having my daughter Alexis work at the Garden Center.

Do you have a favorite tree/plant?

I just love aspen trees...and I love all 4 seasons of them, they are just wonderful.

What is in the future for Sundance Gardens & Landscaping?

I am excited about our new venture coming up next Spring. In 2011 Sundance by Design will be opening at the Evergreen Design Center in the old Hardware Store. The Garden Center will stay where it is, and our new space will be offering unique and interesting Outdoor Living items. It will be fun to delve into a whole different part of the garden business.

Canada Red Cherries

Now is a great time to plant trees and shrubs! We have a nice selection of mountain hardy plants to choose from, including beautiful Canada Red Cherry Trees. The new growth on this plant is bright green, then turns burgundy as the leaves mature. Fragrant white flowers in spring, dark fruit midsummer. Mature size 25' high, 20' spread.

****A Very Happy Mother's Day to you Moms!****

Please call us for a free landscape estimate at **303.670.0358**, and be sure to check out photos of our work at our new website:
