November 2013

With Gratitude

As we come to the close of another gardening season, we would like to **thank you** for your continued loyalty and commitment to your local businesses. We are celebrating our 35th year of landscaping in Evergreen, and want you to know how much we value our return customers and new neighbors and friends.

This year, our maintenance crew is available to help you with your winter watering chores. Winter watering is especially important if you have planted in the last 2 years and we have a dry winter. Newly planted trees benefit from a twice monthly watering. A good rule of thumb is that if your landscaping is not protected by a blanket of snow and it is over 40 degrees, you should hook up the garden hoses and water deeply. For help with this endeavor, please contact our Maintenance Manager Dave Stump (303.885.0715) directly.

Also, keep in mind that our landscaping crews work year round, and are available for hardscaping projects over the winter. We specialize in retaining walls, boulder and rock work, flagstone patios, and water features.

Thank you again for your support.
