

## Budding News from Sundance

August 2014

### Raindrops keep falling on my head!

How fortunate we are that our wet spring is being followed by an even wetter summer. While we may be feeling a bit waterlogged, how wonderful to not worry about wildfires this year. We hope your gardens survived the earlier hail and are now happily reaping the rewards of all this moisture. What a gift if you installed large landscaping plants, trees, and shrubs this year. This deep watering is just what newly established plants need. So grab an umbrella and enjoy the rainbows!

*"And when it rains on your parade, look up rather than down. Without the rain, there would be no rainbow." - Gilbert K. Chesterton*
