### **Linda's Garden Center Tip**

Due to our wet, cool growing season, almost all aspen leaves have been infected with leaf rust disease, ink spot, and marssonina. Fortunately, these leaf diseases usually do not affect the health of the tree. Raking and disposing of leaves will greatly reduce the chances of future disease occurrence.

It is a good time to plant new aspen. Our aspen are all collected from the mountains of Colorado and our new shipment will be arriving in the next few weeks.

NOW is the time to plant spring flowering bulbs, such as daffodils, alliums, hyacinth, and snowdrops. Remember to add bulb food to the bottom of the holes to ensure big blooms next spring. The garden center also carries paperwhite bulbs for indoor forcing.

### **Garden Center Special**

End of season sale going on now.  
40%-75% off perennials....25%-40% off all shrubs.
