Here Comes the Sun.....pretty, pretty please!

Are you chomping at the bit to get outside and get your hands dirty? We know the feeling! The initial June forecast for drier, warmer weather will be most welcome. This should be a great year for wildflowers, we hope you got your seed down in time to take advantage of all that moisture we received!

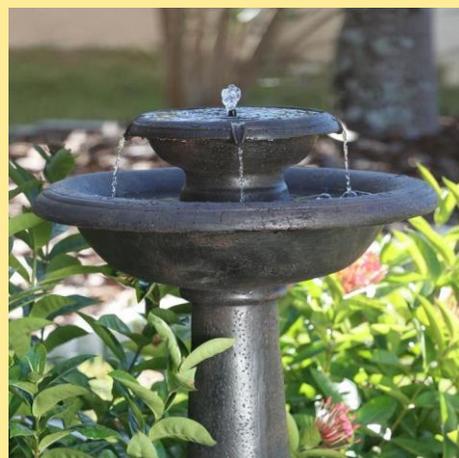

Visit our shops for the healthiest plants and latest in garden decor. Please let us know if we may schedule complimentary appointment to help you with your maintenance and landscaping needs....and desires!

Linda's Garden Center Tip:

"There's a place where Mother Nature has got it all together.
She knows just when to let the wildflowers bloom,
Somehow she always seems to know exactly what she's doing
And the Lord saw fit to furnish elbow room"

That place is Colorado...our home, and with all the moisture we've had, the name Evergreen sure fits. June is the time to PLANT...trees, shrubs, perennials, and yes, finally annuals! So put on your gloves, grab a shovel, and have some fun! And remember to stop and enjoy the "greenery".

"If God doesn't live in Colorado, I'll bet it's where he spends most of his time"
