### **Garden Center Update**

WOW!! What a weird, wacky gardening season we had this year!

Not only was the weather strange with that unusually cold, wet May and then the incredibly hot, dry September, but our gardens were overrun with those nasty little varmints called voles. Hopefully the fox population will make a dramatic comeback soon and devour those critters and bring them under control.

Now is the time to put your gardens to bed. Adding a thin layer of sheep and peat will gently nourish plants every time it snows or rains. After the ground is frozen, add a few inches of mulch to protect plants from a freezing/thawing cycle.

The garden center will be open by **appointment only** from November thru February.

Call **303-670-0358**, leave a message, and I will be happy to arrange to meet you at the garden center at your convenience. We can also do gift certificates over the phone.

It's our customers that make Sundance such a special place. Thanks for patronizing your local stores.

See you in March!

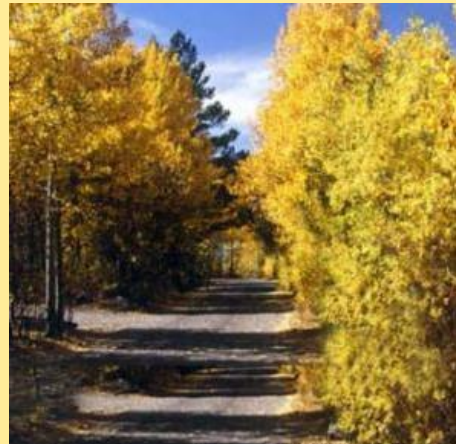

Linda
